

Flexible Auger Bin Discharge Cap

506088

Quicksheet

- The Flexible Auger Bin Discharge Cap allows an auger system to fill a feed bin thru the top opening.
- The assembly is weather proof and has a removable lid.
- The auger tube connects to the discharge cap with a port tube, and the auger connects to a drive unit.
- Both the port tube and drive unit must be sized according to the system and ordered separately.

Weigh Bin Discharge Cap with Weather Hood - Assembly Instructions

NOTE: See Feed Bin Manual & Flexible Auger Manual for additional assembly instructions and hardware.
