

WAYBACK FEED BIN LID OPENER WITH ADAPTER

500868

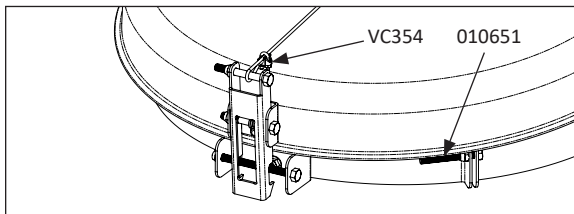

Installation Quick Sheet

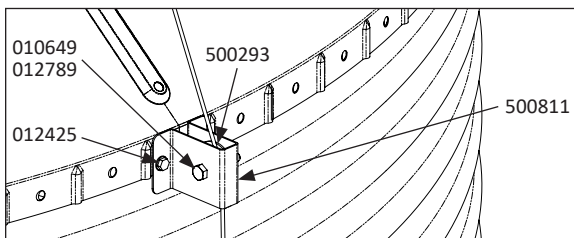

Step 1: Slide the bin lid adapter onto the bin collar to the desired position.

Step 2: Slide the lid assembly over the bin lid adapter onto the bin collar to the desired position. Orient the hinge so it aligns with a leg. Also, if easy access to look inside the bin is desired, locate the lid to open away from the ladder.

Step 3: Tighten the 5/16 x 2-1/4" bolt (010651) to clamp the lid collar to the bin collar.

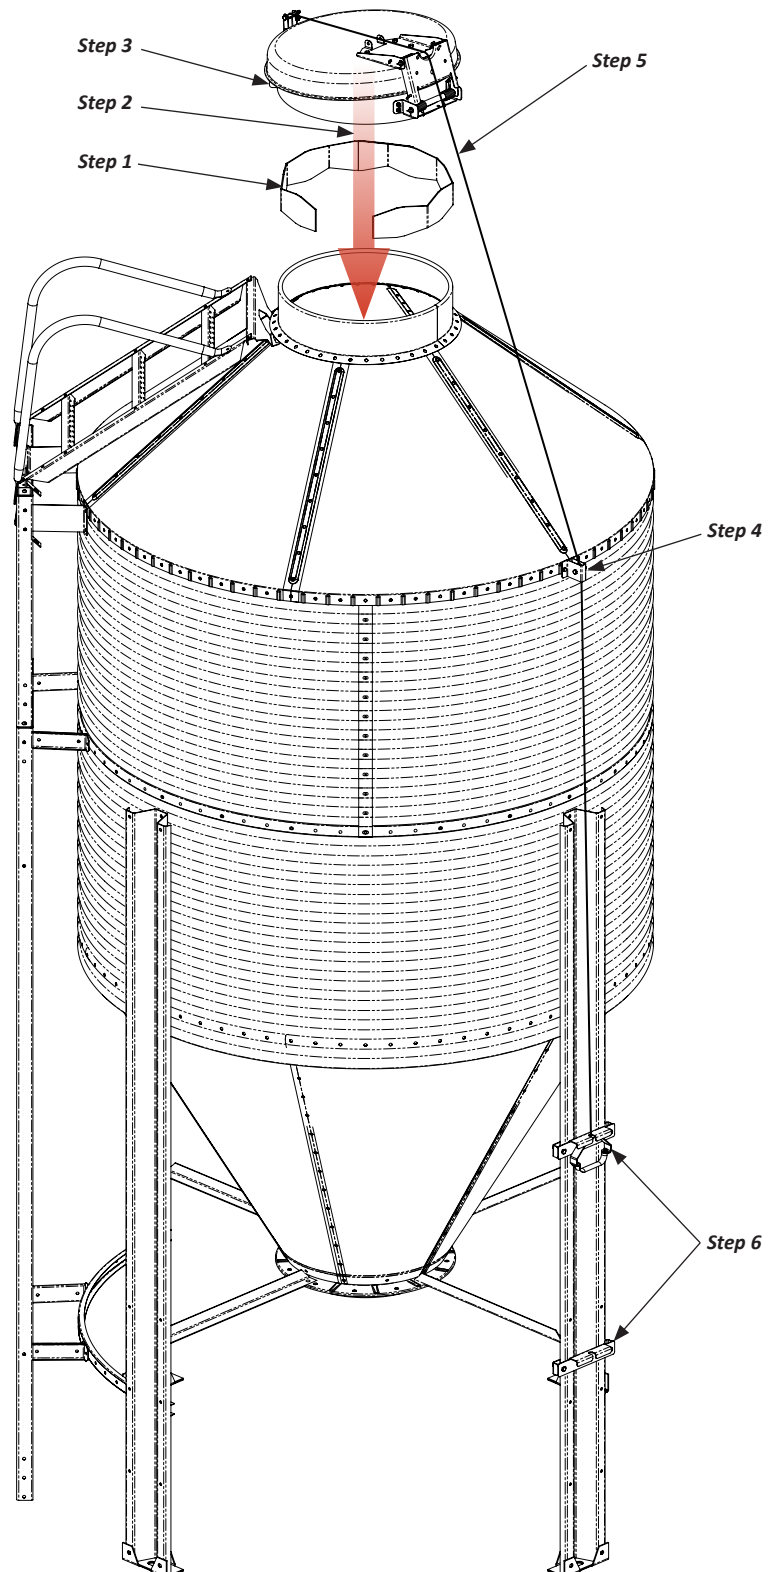

Step 4: Assemble the pulley (500293) and pulley retainer (500811). Attach the pulley retainer to the bin using Tek screws (012425).

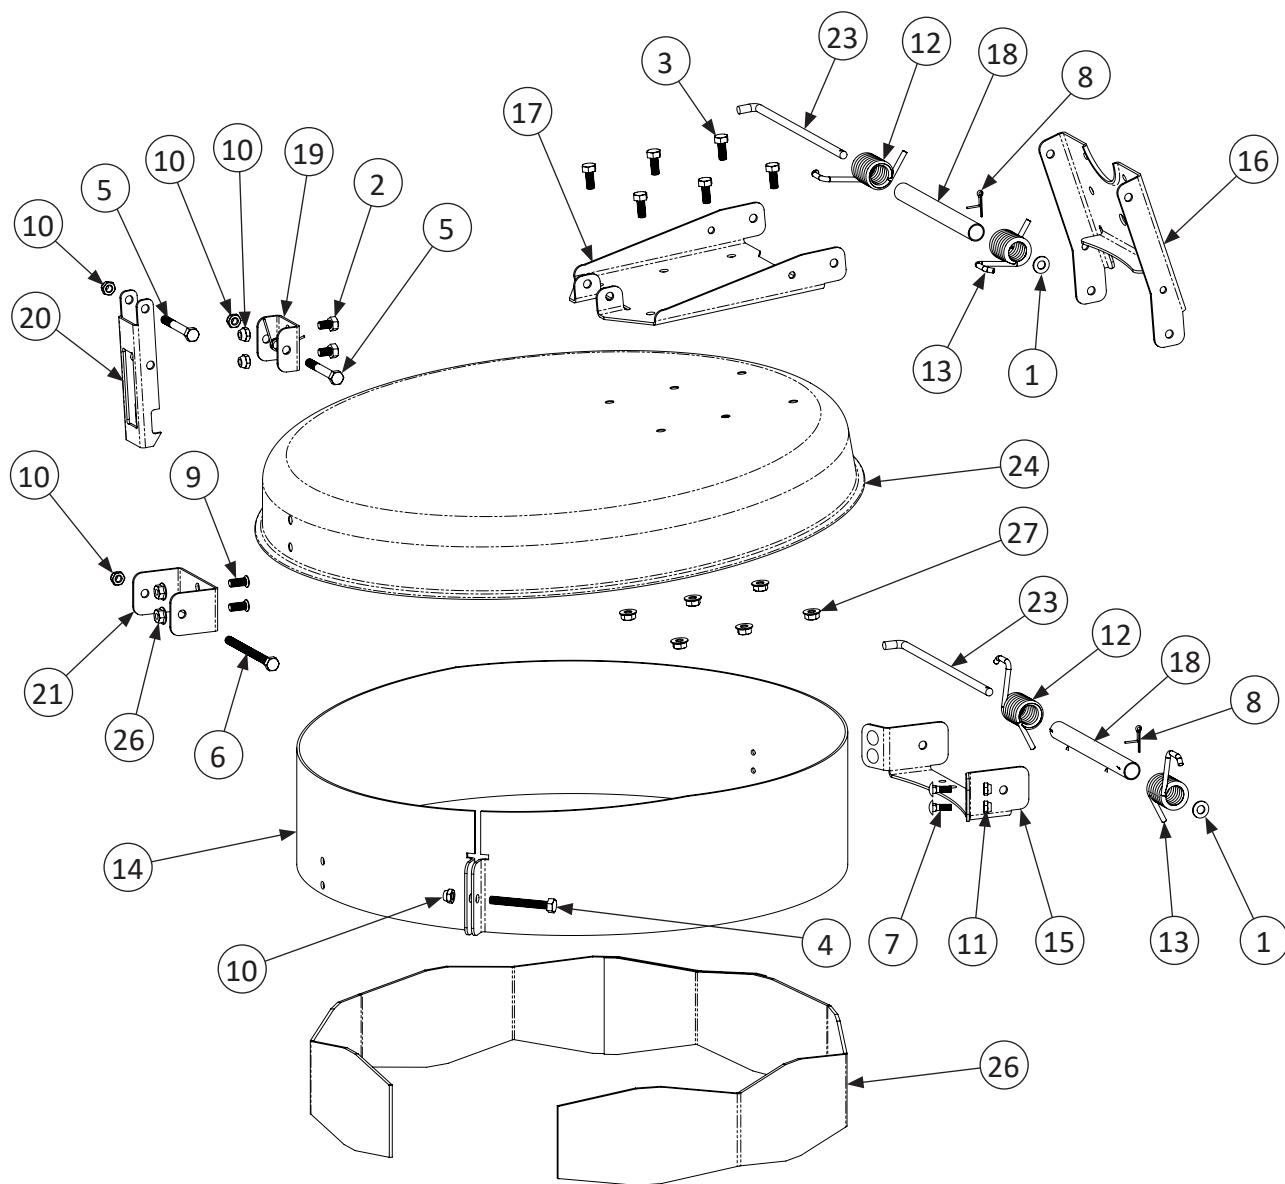

Step 5: Thread the cable through the handle, up the side of the bin, through the pulley retainer, over the lid, and around the lid latch bolt, as shown. With the lid closed, pull the cable through until the handle is about at eye level, or 5ft. off the ground. Then secure the cable around the lid latch bolt with a cable clamp (VC354).

Step 6: Attach the handle retainer brackets to the outside of the feed bin leg, as shown - one at the closed position and one at the fully open position. Make sure the handle is held securely in the closed position so it doesn't blow in the wind.

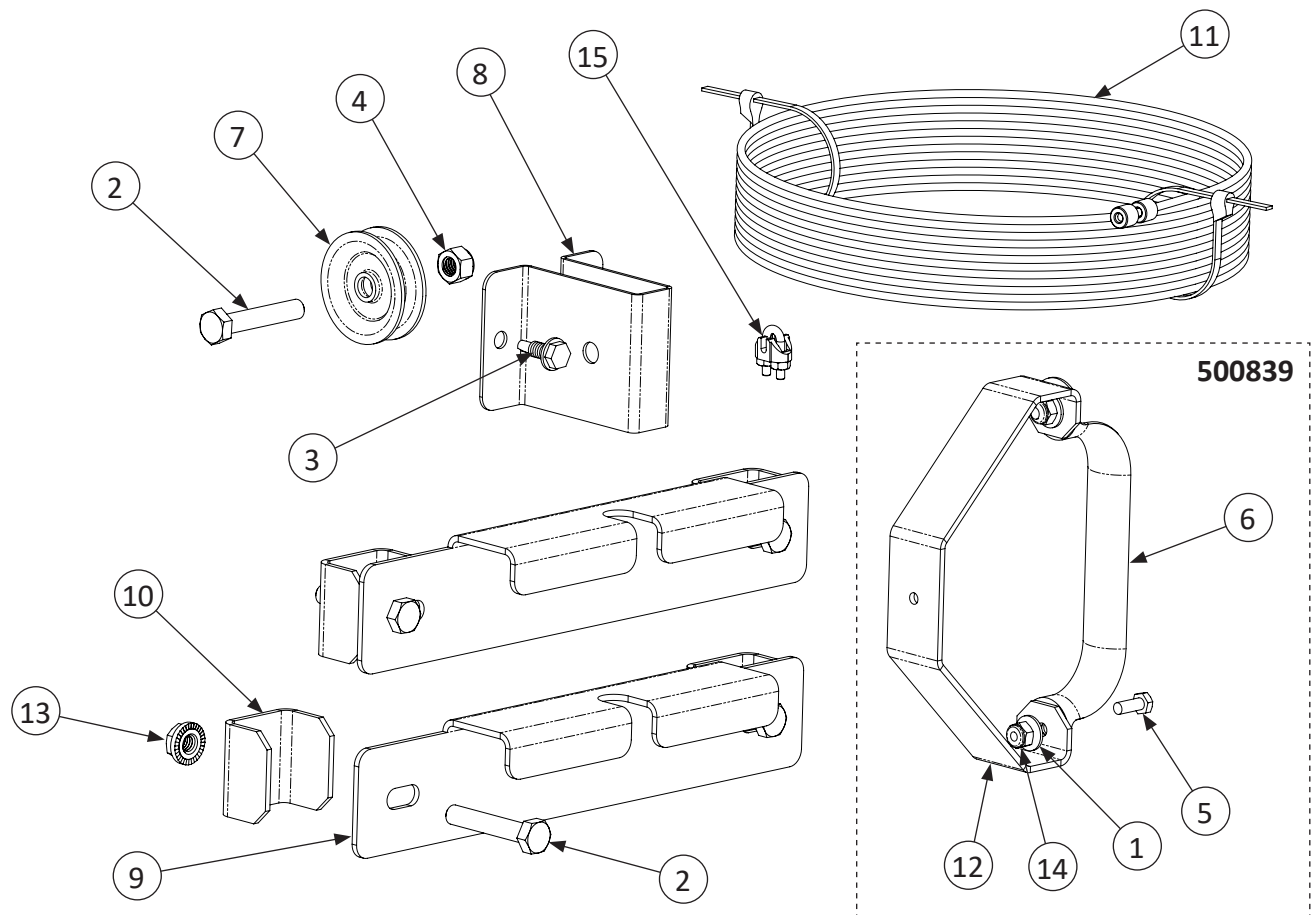

Way-Back Lid - Exploded View

KEY	PART #	DESCRIPTION	QTY
500868 - WAYBACK LID OPENER WITH ADAPTER			
1	010426	5/16" FLAT WASHER	2
