

Your World Is Now Full of Options.

The FUZE® ProLine Feeding System from VAL-CO® offers you the ability to do something you've never been able to do before... build your own feeding system.

Features for all FUZE ProLine Feeding Systems:

- Three large feed windows for automatic and even pan flooding with feed
- Grill and pan form a large feed saving lip to minimize feed spillage and waste.
- Accurate feed level adjustments are quickly made from outside the pan
- Deep center feeding "V" bottom nestles down into the litter to promote easier chick access when brooding and overall feed savings
- Increased material thickness added to the pans in the "scratch" areas to improve pan life
- Anti-rake fins reduce billing and feed wastage
- Constructed with engineered polymer resins to resist wear and reduce the harboring of bacteria
- Two-piece top for ease of installation/replacement or one piece tower for additional rigidity and strength
- A pan/grill hinge and lock that securely locks pan to grill and provides for easy cleaning between flocks
- A mechanical switch control pan which provides high reliability and ease of maintenance
- An optional end control unit bird attracting light – LED lights that emit wavelengths known to attract birds

The LED light will attract your birds to the pans when it's feeding time.

Also available - the single piece tower provides additional rigidity and strength especially when feeding larger birds

Performance You Can Count On

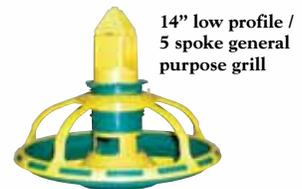

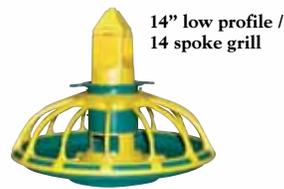

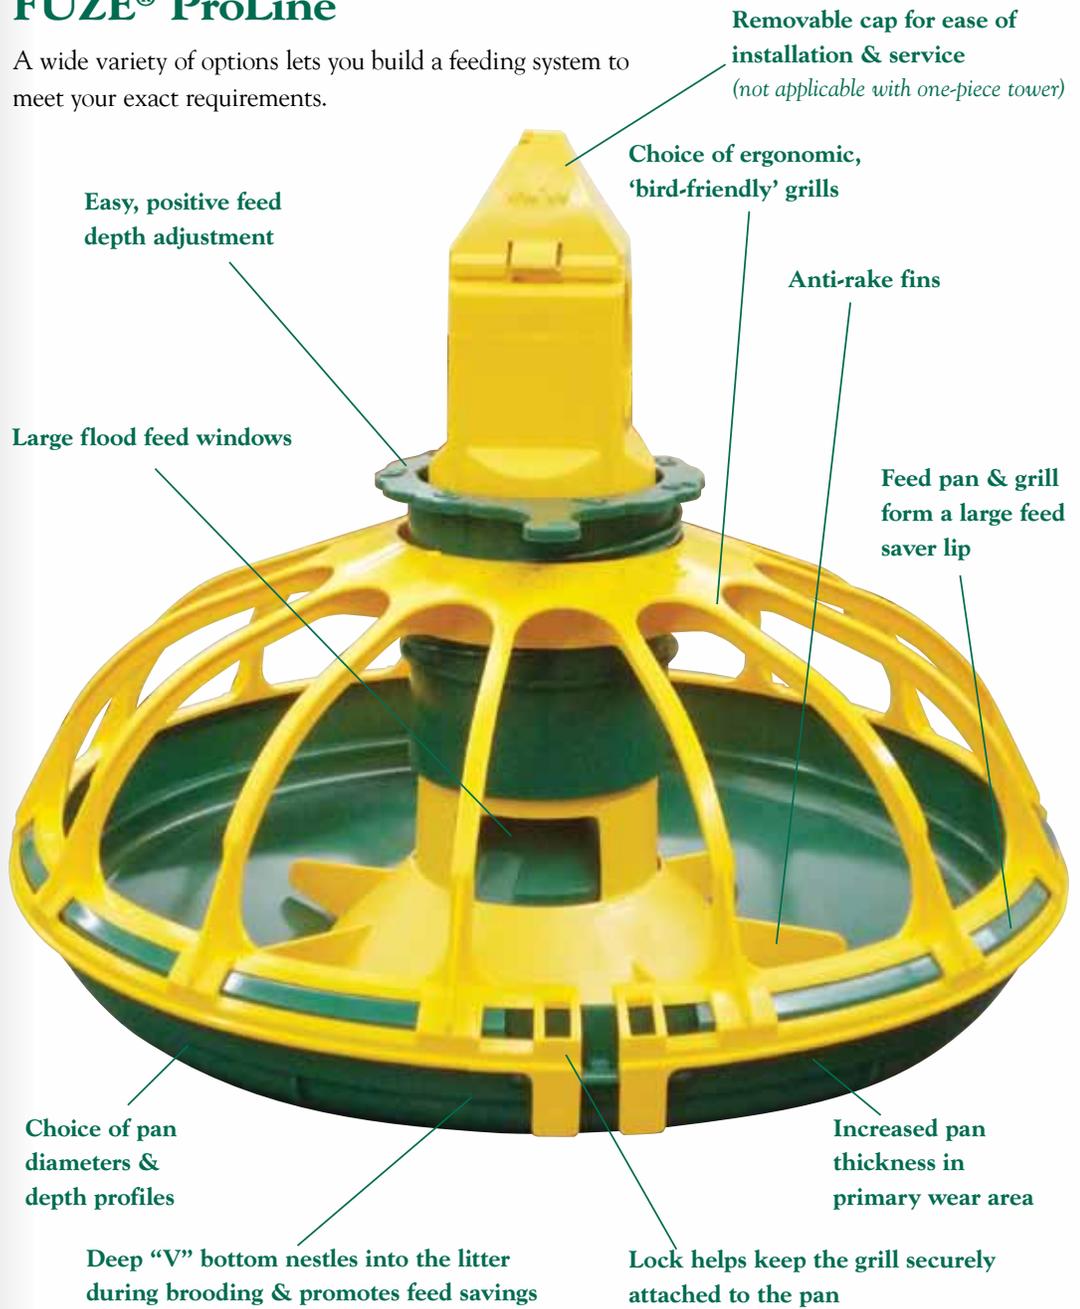

The FUZE ProLine Feeders allow you to mix & match interchangeable components to “custom build” the feeder that is right for your particular live production needs.

- Choice of pan diameters: 13 or 14 inch diameters
- Choice of pan depth: shallow depth (2.4 in/61mm) or standard depth (3.0in/76mm)
- Choice of grill configurations: 13 spoke grills for 13 inch pans, and 14 spoke grills for 14 inch pans. Additionally there is a 5 spoke general purpose grill available for the 14 inch pans
- All grills are designed to provide generous spacing for today’s breeds of birds; and easy in and out of the pan for brooding chicks
- Grills are designed to virtually eliminate trapping of chicks in the pan
- Integrated hinge & lock grill to pan attachment facilitates cleaning/disinfection

FUZE® ProLine

A wide variety of options lets you build a feeding system to meet your exact requirements.
